遠東集團創辦人
徐有庠先生

Mr. Yu-Ziang Hsu,
Far Eastern Group Founder

立業精神 Founding Spirit

遠東集團創辦人徐有庠先生

以「誠信」作為事業體經營發展的最高指導原則，
凡事但求確確實實，不作假、不隱瞞，並推而廣之，
塑建「誠、勤、樸、慎、創新」的立業精神。

The Far Eastern Group's Founder - Mr. Y. Z. Hsu
has always taken "trustworthiness" as the guiding
principle of his business management. Beyond the Group
Founder's commitment to constancy, honesty,
and openness, he has enshrined "Sincerity, Diligence,
Thrift, Prudence, and Innovation" as Far Eastern's
founding motto.

誠

誠者，真誠也。

對顧客、對社會大眾、對同事都要真誠相待，彼此有信，才能合作無間。

Sincerity -

Customers, the general public, and colleagues must all be treated with sincerity; cooperation and teamwork must be based on mutual trust.

勤

勤者，勤奮也。

每個人都要勤奮工作，努力不懈，才能日新又新；以勤補拙，才可望克服萬難。

Diligence -

Everyone must always work diligently to renew themselves and the company. With diligence, we may make up for our inadequacies and overcome hardships.

樸

樸者，儉樸也。

生活簡樸、愛福惜福，自然能夠清心寡欲，人生才會快樂。

Thrift -

Live a simple life and cherish your blessings; thus one may live a happy life with few earthly desires.

慎

慎者，審慎也。

做任何事情，事前都必須審慎評估，做好規劃，才容易成功。

Prudence -

Always make a cautious assessment before undertaking any task; those who plan ahead are those who will succeed.

創新

創新。

不斷為顧客、為股東創造新的價值，是遠東集團始終堅持的目標，而最高理想是讓旗下的 每一個事業體，都成為該產業第一流的公司。

Innovation -

The Far Eastern Group's ultimate goal is to constantly create new value for customers and shareholders. The Group's top objective is to make every enterprise under its flag a leading company in its industry.

誠勤樸慎．創新的企業精神

經營宗旨 Business Purpose

不斷為顧客、為股東創造新的價值，
是遠東集團始終堅持的目標，而最高理想是讓旗下
的每一個事業體，都成為該產業第一流的公司。
在追求卓越之同時，遠東集團也致力於員工福利之提升
與環境之保護，以增進人與環境之和諧與平衡。

The Far Eastern Group's ultimate goal is to
constantly create new value for customers and
shareholders. The Group's paramount ideal is to make
every enterprise under its flag a leading company in
its industry. While striving for excellence, Far Eastern
Group is also dedicated to the promotion of employee
benefits and environmental protection in a bid to
enhance harmony and balance between people and
the environment.

遠東企業集團由紡織崛起，歷經 70 年以來持續的投資擴展，進行產業垂直與水平的整合，目前集團經營領域已涵蓋石化能源、聚酯材料、水泥建材、百貨零售、金融服務、交通運輸、電信科技、營造建築、觀光旅館、社會公益等十餘項行業，資產總額新台幣 3.44 兆元（1,130 億美元），營業額超過新台幣 6,961 億元（228 億美元），共有十家上市櫃公司。

同時，不斷創新、為股東創造新的價值之宗旨，遠東集團分佈在台灣、大陸、日本、美國、香港、越南、新加坡、馬來西亞、泰國等十餘個國家及地區，超過 5.6 萬名訓練嚴謹、熱忱敬業的高素质員工，結合最先進的科技知識、技術、設備與管理，產銷高品質的能源、化纖原料、紡織衣飾、水泥建材等商品，並提供百貨零售、金融、運輸、電信、營建、教育等全方位、多元化的服務。

為提升人類生活福祉，促進人與環境的和諧，遠東集團所有的經營活動以保護環境品質及有效運用地球資源為中心，不但提供員工最完整的訓練、良好的工作環境，並鼓勵員工終身學習以吸收新知，提升技能；配合積極的研發創新，以智慧化營運模式，製造最優質的產品，提供最貼心的服務。

遠東集團的理想是讓旗下的每一個事業體，都成為該產業第一流的公司，過去如此，現在依然，而未來的努力方向也將不會改變。

The Far Eastern Group emerged from the textile industry. After 70 years of continuous expansions, it has implemented vertical and horizontal industrial integration. The current Group's business areas cover industries including petrochemicals and energy, polyester materials, cement and building materials, retail, financial services, transportation, telecom and technology, construction, hotels,

philanthropies etc., with total assets of more than NT\$3.44 trillion (US\$113 billion) and revenues of more than NT\$696.1 billion (US\$22.8 billion). The Group comprises ten publicly listed companies .

Committed to constantly creating new value for customers and shareholders, the Group's more than 56,000 highly-qualified, solidly-trained, enthusiastic and dedicated employees are operating in more than 10 countries, including Taiwan, China, Japan, the U.S., Hong Kong, Vietnam, Singapore, Malaysia and Thailand. Leveraging state-of-the-art technologies, knowhow, skills, facilities and management, the Group manufactures and markets high-quality products ranging from energy, chemical fibers, textile & apparels to cement & construction materials, also offers comprehensive and diversified services in the areas of retail & department stores, financial services, transportation, telecom, healthcare and education.

To seek human welfare and enhance harmony between people and the environment, all business activities engaged by the Group are focusing on environmental protection and effective utilization of natural resources. The Group not only provides the most comprehensive on-the-job trainings and pleasant working environment for the staff but also encourage lifelong learning to broaden knowledge and skillsets. 遠東集團董事長

徐旭東先生

Mr. Douglas Tong Hsu,
Far Eastern Group Chairman

董事長箴言

遠東集團走過七十餘年，始終以穩健的經營基礎與長期經營視野，面對景氣循環與產業結構重組的關鍵轉折，秉持務實經營與企業責任並重的理念，堅守「誠勤樸慎、創新」核心價值，在多元事業發展與產業演進中持續推進，累積跨領域整合能力，建立支持永續成長的穩固基礎。

當前全球政經格局正快速重構，地緣政治風險升高，國際貿易與供應鏈體系出現結構性調整；主要經濟體在安全與成長之間重新平衡，政策的不確定性、能源及原物料價格波動、貨幣政策轉向與匯率變化等交互影響，讓集團經營環境進入高變動、高不確定的新常態，也使得企業需強化營運與風險管理能力。

人工智慧的快速推進，正重塑跨產業價值鏈與服務體系，改變競爭格局並推動價值再分配；永續發展已由策略選項轉為參與全球競爭的基本門檻，低碳能力與綠色供應鏈成為企業

維持競爭力的必要條件。科技與永續，更成為驅動多元事業成長與價值創造的關鍵力量。

面對新一輪競爭，集團將持續推進轉型與布局，深化核心技術與服務能力，加速數位化與智慧營運，推動低碳轉型，全面提升營運效率與環境績效；並以更高標準強化風險管理與整體韌性，優化全球經營體系，在不確定中維持穩定，在波動中掌握主導。

在高度競爭的時代，遠東集團不追逐短期紅利，而是持續累積長期價值。未來，將以科技為引擎、以創新為驅動、以永續為核心，在變局中主動出擊、開創新局。

Chairman's Message

Far Eastern Group has consistently upheld a foundation of prudent management and a long-term strategic vision for over 70 years. In navigating economic cycles and critical turning points in industrial restructuring, the Group adheres to a philosophy that balances pragmatic management with corporate responsibility. Guided by its core values of "Sincerity, Diligence, Thrift, Prudence, and Innovation," it has continued to advance across diversified businesses and evolving industries, building cross-domain integration capabilities and establishing a solid foundation for sustainable long-term growth.

Currently, the global geopolitical and economic landscape is undergoing rapid transformation. Rising geopolitical risks, structural adjustments in international trade and supply chains, and the rebalancing of security and growth among major economies

have introduced heightened uncertainty. Factors such as volatile energy and raw material prices, shifts in monetary policy, and exchange rate fluctuations are interacting in complex ways. As a result, the Group now operates in a "New Normal" characterized by high volatility and uncertainty, requiring stronger operational discipline and enhanced risk management capabilities.

The rapid advancement of artificial intelligence is reshaping cross-industry value chains and service ecosystems, altering competitive dynamics and driving the redistribution of value. At the same time, sustainability has shifted from a strategic option to a fundamental requirement for participation in global competition. Low-carbon capability and green supply chains have become essential to maintaining competitiveness. Technology and sustainability

are thus emerging as the key drivers of growth and value creation across the Group's diverse businesses.

In response to this new wave of competition, the Group will continue to accelerate transformation and strategic deployment. It will deepen its core technological and service capabilities, advance digitalization and intelligent operations, and promote low-carbon transformation to enhance operational efficiency and environmental performance. At the same time, it will strengthen risk management and organizational resilience to higher standards, optimize its global operating system, and maintain stability amid uncertainty while taking the lead amid volatility.

In an era of intense competition, the Far Eastern Group does not pursue short-term gains. Instead, it remains committed to building long-term value. Looking ahead, it will use technology as its engine, innovation as its driving force, and sustainability as its core—proactively seizing opportunities in times of change and creating new horizons.

經營團隊

遠東集團卓越的經營團隊是一個跨國籍、跨文化的菁英人才組合，不僅在各專業領域皆屬一時之選，對全球及區域性的危機與風險，更具備靈活的應變能力及敏銳的預警本領；因此，在本集團全球化、國際化的策略佈局過程中，都能事先有效規避全球各地區的風險，充份運用各地區不同的資源特色與優勢，創造集團最高的市場價值。

石化能源事業

Petrochemicals and Energy

掌握關鍵原料

發揮垂直整合優勢

Securing Key Raw Materials and Leveraging Vertical Integration

石化能源事業為遠東集團向上游整合的重要布局，除確保聚酯原料穩定供應外，亦積極發展特用化學品與綠色環保材料，透過差異化策略，持續提升市場競爭力。

1975 年遠東集團配合政府推動石化工業，參與投資東聯化學股份有限公司，生產聚酯原料 - 乙二醇 (MEG)。其後，為確保另一項聚酯關鍵原料 - 純對苯二甲酸 (PTA) 穩定供應，於 1995 年與英商 Brunner Mond & Co., (ICI) 合資在台灣設立遠東卜內門公司生產 PTA，2008 年由遠東集團取得該公司全數股權，並更名為亞東石化股份有限公司。此外，面對中國大陸聚酯產業快速成長，於揚州建立 MEG 工廠，2015 年正式投產，進一步穩固聚酯原料供應。

目前正於美國德州建置 PTA 與 PET 一貫化生產基地，發揮垂直整合優勢，持續強化產業領導地位。

The Petrochemicals and Energy business is a crucial upstream integration layout for the Far Eastern Group. In addition to ensuring a stable supply of polyester raw materials, it actively develops specialty chemicals and green eco-friendly materials, continuously enhancing market competitiveness through a differentiation strategy.

In 1975, responding to the government's promotion of the petrochemical industry, the Far Eastern Group invested in Oriental Union Chemical Corporation (OUCC) to produce the polyester raw material, Ethylene Glycol (MEG). Subsequently, to secure the stable supply of another key polyester raw material, Purified Terephthalic Acid (PTA), the Group formed a joint venture with the British firm Brunner Mond & Co., (ICI) in 1995 to establish a PTA plant in Taiwan. In 2008, the Group acquired all shares of the company and renamed it Oriental Petrochemical (Taiwan) Corporation. Furthermore, facing the rapid growth of the polyester industry in mainland China, an

MEG plant was established in Yangzhou and officially started production in 2015, further securing the supply of polyester raw materials.

Currently, the Group is developing an integrated PTA and PET production base in Texas, USA, leveraging the advantages of vertical integration to further strengthen its industry leadership.

石化能源事業

Petrochemicals and Energy

實現化學工業永續發展 智慧製造帶動產業升級

Advancing Sustainable Chemical Development
and Driving Industrial Upgrading through Smart
Manufacturing

石化能源事業積極開發高值化產品，並透過製程改善，降低營運生產對環境之衝擊。此外，透過導入 AI、物聯網、5G、大數據等先進技術，提升生產效率並帶動產業轉型升級。

東聯化學事業版圖已延伸至特用化學品及工業用氣體領域，生產乙醇胺、碳酸乙烯酯，以及各種工業用氣體，應用於建築、醫療、光電及民生等產業，並透過廢棄物回收再製，以循環經濟模式協助產業永續發展。

亞東石化積極布局數位轉型，包括以 VR 進行教育訓練、無人機巡檢、智慧化物流管理、安全及能源電子看板等，建構全新智能化工廠。

嘉惠電力為遠東集團延伸過去在水泥廠廢熱回收發電的技術經驗，配合政府長期電源開發計畫，投入天然氣發電，為台灣供應穩定且潔淨的電力能源。

The Petrochemicals and Energy Business actively develops high-value products and reduces the environmental impact of its operations and production through process improvements. Additionally, by introducing advanced technologies such as AI, the Internet of Things (IoT), 5G, and Big Data, it enhances production efficiency and drives industrial transformation and upgrading.

Oriental Union Chemical Corporation (OUCC) has expanded its business footprint into specialty chemicals and industrial gases, producing Ethanolamine (EA), Ethylene Carbonate (EC), and various industrial gases used in construction, healthcare, optoelectronics, and consumer industries. Through the recycling and remanufacturing of waste materials, the company supports sustainable industrial development through a circular economy model.

Oriental Petrochemical (Taiwan) Corporation (OPTC) is actively deploying digital transformation, including educational training via VR, drone inspections, smart logistics management, and plus safety and energy electronic dashboards, constructing a brand-new smart factory.

Chiahui Power Corporation builds upon the Far Eastern Group's experience in waste heat power generation (WHP) at its cement plants. In line with the government's long-term power development plan, the company has invested in natural gas power generation to supply Taiwan with stable and clean electricity.

聚酯材料事業 Polyester Materials

運籌全球市場 發揮區域整合綜效

Expanding Global Markets and
Enhancing Regional Integration Synergies

創立逾 70 年的遠東新世紀，是遠東集團的第一家公司，亦是台灣最早完成上中下游垂直整合的聚酯紡織製造商，以一條龍垂直整合架構，為客戶提供完整解決方案。

遠東新世紀以全球化視野佈局，營運據點自台灣拓展至中國大陸、日本、美國、越南、馬來西亞、菲律賓等，建構橫跨亞洲與美洲的生產體系，形成高度韌性的區域供應鏈。看準越南經貿優勢，於當地打造一貫化生產基地，並在 2025 年完成回收再生工廠建置，進一步鞏固全球食品級回收再生聚酯領導者地位。

南台灣最具規模一貫化紡織大廠宏遠興業，完成亞洲、美洲及非洲等地區布局，並具備垂直整合自動化智慧製造工廠，持續提升生產效率與全球供應能力。

Far Eastern New Century (FENC), founded over 70 years ago, is the first company of the Far Eastern Group and the first polyester and synthetic fiber manufacturer in Taiwan to achieve full vertical integration across upstream, midstream, and downstream operations, providing customers with comprehensive solutions through its fully integrated production structure.

FENC has established a global footprint, expanding its operations from Taiwan to mainland China, Japan, the United States, Vietnam, Malaysia, and the Philippines, building a production network spanning Asia and the Americas and forming a highly resilient regional supply chain. Recognizing Vietnam's strategic trade advantages, the company has developed an integrated production base there and completed the construction of a recycling facility in 2025, further strengthening its position as a global leader in food-grade recycled polyester.

Everest Textile, the largest integrated textile manufacturer in southern Taiwan, has established operations across Asia, the Americas, and Africa. Backed by vertically integrated automated smart manufacturing facilities, the company continues to enhance production efficiency and global supply capabilities.

環保領頭羊 聚酯產業掀起全球綠色革命

Leading Sustainability and Driving Global Green Transformation of the Polyester Industry

遠東新世紀投入循環經濟超過 35 年，開發多元環保產品，研發技術傲視國際，包括「Bottle to Bottle」回收再生酯粒、「Bottle to Fiber」再生環保紗，以及「Bottle to Other Packaging」再生包裝材應用技術等。

近年投入高技術門檻的「Textile to Textile」回收技術，包括以物理及化學回收法，將廢棄紡織品製成高品質再生纖維，更深化聚酯單一材質應用，包括全球首創以廢棄 PET 瓶製成鞋中底，並已商業化應用。此外，遠東新世紀積極於全球據點建構「Closed Loop」封閉式回收體系，帶動當地循環經濟正向發展。除了產品多元，遠東新世紀永續發展績效亦備受各界肯定，屢獲海內外多項永續大獎。

宏遠興業以永續、創新為核心，開發前瞻環保產品，包括全球首款 100% 成衣廢料再生尼龍等，持續推動循環材料與低碳產品應用。

FENC has been dedicated to the circular economy for over 35 years, developing diverse eco-friendly products with internationally leading R&D technologies, including "Bottle to Bottle" recycled PET resin, "Bottle to Fiber" recycled yarn, and "Bottle to Other Packaging" recycled packaging material application technologies.

In recent years, FENC has invested in high-technical-threshold "Textile to Textile" recycling technologies, including physical and chemical recycling methods to convert discarded textiles into high-quality recycled fibers. It has further deepened the application of single-material polyesters, including the world's first shoe midsole made from discarded PET bottles, which has already been commercialized. In addition, FENC is actively establishing a "Closed Loop" recycling system at its global bases, driving positive developments of the local circular economy. Besides diversified products, FENC's sustainability performance is widely recognized, frequently winning numerous domestic and

international sustainability awards.

Everest Textile focuses on sustainability and innovation as its core, developing forward-looking eco-friendly products, including the world's first 100% garment waste recycled nylon. It continuously promotes the application of circular materials and low-carbon products.

亞洲水泥更跨足電力、鋼鐵、預鑄及運輸等事業，藉由多角化經營，創造公司最佳價值。所轉投資的嘉惠電力公司，為全台灣最大的民營天然氣發電廠；遠龍不銹鋼公司鋼捲產品銷售世界各國；亞利預鑄公司生產之預鑄產品如捷運系統隧道環片等，符合建築科技發展趨勢。

亞洲水泥積極推動循環經濟，減少天然資源耗用，並協助產業廢棄物資源再利用，將環境效益轉化為 ESG 價值。同時，公司持續投入低碳營運，已通過 2030 年 SBTi 1.5°C 情境近程目標，涵蓋範疇一至範疇三，並以 2050 年淨零排放為長期方向。亞洲水泥亦重視公司治理、職場安全與社會責任，長期以務實行動回應利害關係人期待，是深受各界信賴的永續企業。

Asia Cement has also expanded into power, steel, precast concrete, and transportation businesses, creating optimal value through diversified operations. The Chia Hui Power Company is the largest privately-owned natural gas power plant in Taiwan; Yuan Long Stainless Steel Corporation's stainless steel rolls are sold worldwide; and Ya Li Precast Prestressed Concrete Industries Corporation produces precast products such as tunnel rings for MRT systems, aligning with the trends in building technology development.

At the same time, Asia Cement continues to advance low-carbon operations. The company has received validation for its 2030 SBTi 1.5°C near-term target, covering Scope 1, Scope 2, and Scope 3 emissions, and has set net-zero emissions by 2050 as its long-term direction. Asia Cement also places strong importance on

corporate governance, workplace safety, and social responsibility. With practical and long-term actions, the company continues to respond to stakeholder expectations and is widely trusted as a sustainable enterprise.

遠東集團深耕海陸運輸領域，建構多元國際運輸網絡，服務範疇涵蓋水泥、礦砂、煤炭、穀物及能源等大宗物資與工業原料，打造高度整合的供應鏈服務體系。

在海洋運輸領域，核心企業裕民航運主要經營乾散貨運輸，並拓展能源運輸與綠能海事服務。船隊涵蓋海岬型（Capesize）、巴拿馬極限型（Panamax）、超輕便型（Ultramax）、水泥專用船、超大型油輪（VLCC）及超大型礦砂船（VLOC），並布局離岸風電人員運輸船（CTV）、運維服務船（CSOV）與液化天然氣（LNG）運輸

船等多元船型。目前自有、合資及在建船舶合計達 84 艘，總載重噸位近 1,000 萬噸，為台灣規模最大且船型最完整的上市散裝航運企業之一。

裕民航運以台灣為營運總部，於新加坡、香港及中國設立子公司。公司積極推動低碳轉型，投入節能船舶研發，並規劃導入生質柴油等替代燃料。同時配合政府能源政策，布局潔淨能源運輸，首艘 LNG 運輸船預計 2026 年投入營運，展現公司邁向多角化與新能源運輸之重要里程碑。

Far Eastern Group is deeply committed to marine and land transportation, building a diversified international logistics network. Its service scope covers bulk commodities and industrial raw materials—including cement, ore, coal, grain, and energy—forming a highly integrated supply chain service system.

In the marine transportation sector, the core enterprise U-Ming Marine Transport Corporation primarily operates dry bulk shipping while expanding into energy transportation and green maritime services. Its fleet covers a diverse range of vessel types, including Capesize, Panamax, Ultramax bulk carriers, cement carriers, Very Large Crude Carriers (VLCC), and Very Large Ore Carriers (VLOC), alongside strategic layouts in Crew Transfer Vessels (CTV), Commissioning Service Operation Vessels (CSOV), and Liquefied Natural Gas (LNG) carriers. The fleet currently consists of 84 owned, jointly operated, and under-

construction vessels, with a total deadweight tonnage approaching 10 million tons, making it one of Taiwan's largest and most comprehensive listed dry bulk shipping companies.

Headquartered in Taiwan, U-Ming has established global presence with subsidiaries in Singapore, Hong Kong, and China. The company actively drives low-carbon transformation by investing in energy-efficient vessel research and planning the adoption of alternative fuels such as biodiesel. In alignment with government energy policies, U-Ming is expanding into clean energy transportation, with its first LNG carrier scheduled to commence operation in 2026, marking a significant milestone in the company's diversification into new energy transportation.

面對全球航運市場變動與淨零趨勢，裕民航運自 2016 年起投入智慧船舶安全管理系統（FSM）開發，透過即時數據監控提升營運效率與海事安全。未來將持續深化 ESG 永續治理，拓展綠色航運與潔淨能源市場，穩步邁向國際級永續海運企業目標。

在陸路運輸方面，遠東集團在台灣設立富民運輸、富達運輸及亞利通運，擁有超過 337 輛各式車隊，服務涵蓋水泥、煤炭與工業產品等，並在中國江西、武漢、四川成立亞利運輸，拓展水泥銷售版圖。

遠東集團展望海峽兩岸航運市場契機，已在武漢成立武漢長亞航運公司，經營水泥江運作業，積極部署中國江海物流。以豐富運輸經驗作為全球化市場經營基礎，遠東集團之運輸事業前景可期。

Amid global shipping market volatility and net-zero trends, U-Ming has invested in the development of its Fleet Safety Management (FSM) system since 2016, leveraging real-time data monitoring to improve operational efficiency and maritime safety. Going forward, U-Ming will continue to deepen ESG governance, expand into green shipping and clean energy markets, and steadily progress toward its goal of becoming a world-class sustainable shipping enterprise.

In land-based logistics, Far Eastern Group has established Fu Ming Transport, Fu Ta Transport, and Ya Li Transportation in Taiwan. Operating a diverse fleet of over 337 vehicles, these companies provide comprehensive services spanning cement, coal, and industrial products. Furthermore, the Group has founded

Ya Li Transport in Jiangxi, Wuhan, and Sichuan to actively expand its cement distribution network in mainland China.

Capitalizing on emerging opportunities in cross-strait shipping markets, Far Eastern Group has also established Wuhan Chang Ya Shipping Co., Ltd. in Wuhan. This subsidiary specializes in river transport operations for cement, driving the Group's strategic deployment in China's river-to-sea logistics. Backed by extensive transportation expertise as a foundation for global market development, Far Eastern Group's logistics and shipping business is well-positioned for a highly promising future.

在車用電子領域，遠東集團亦為業界典範。由集團投資營運的遠通電收 2006 年提供國道高速公路電子收費服務，2026 年已超過 930 萬用戶申裝 ETC 服務，每月國道交易數超過 5 億次，成功帶領台灣走向智慧交通新境界，更是全球領先的高速公路多車道自由車流電子收費案例。

Far Eastern Group's communications and network businesses encompass Far EasTone Telecommunications (Far EasTone), Far Eastern Electronic Toll Collection (FETC), Nextlink Technology, Information Security Service Digital United, and other affiliated entities. They continue to expand a diversified service portfolio to address the evolving communications and technology needs of both consumers and enterprises. In response to shifting global dynamics and the rapid advancement of AI, Far EasTone actively integrates its ICT resources and capabilities. Far EasTone delivers high quality products and services that closely align with market demands by leveraging robust network infrastructure, innovative digital services, and agile enterprise solutions.

Far Eastern Group has also established itself as a benchmark in the automotive electronics industry. Since launching electronic toll collection (ETC) services on national freeways in 2006,

FETC has reached more than 9.3 million ETC users by 2026, processing over 500 million freeway transactions each month. This achievement has played a pivotal role in advancing Taiwan's intelligent transportation development and represents one of the world's leading large-scale implementations of multi-lane, free-flow electronic tolling systems.

因應市場變化，遠傳電信於 2023 年完成合併亞太電信，整合頻譜與固網資源，不僅發揮經濟規模、創造多贏並促進環境永續，一方面提供消費者優質的網路與數位服務，同時透過大數據、人工智慧、物聯網、雲端、資安等核心技術帶動企業服務營收成長。

藉由綿密優質的網路與平台科技，遠東集團通訊網路事業群已逐步達成整合行網、固網、數位服務、智慧資通訊服務及車用電子服務的願景，更跳脫單純的通訊技術匯流與傳統通訊服務範疇，透過相輔相成的核心技術，成為運用平台科技提供服務的事業體，持續在電信市場中扮演創新者、先驅者及挑戰者。

In response to evolving market dynamics, Far EasTone completed its merger with Asia Pacific Telecom in 2023, integrating spectrum assets and fixed-line infrastructure. This strategic move not only enhances economies of scale, creates shared value, and advances environmental sustainability, but also strengthens the delivery of superior network and digital services to consumers. Moreover, it accelerates enterprise revenue growth by applying core technologies, including Big Data, AI, IoT, Cloud Computing, and Cybersecurity.

Supported by its comprehensive network infrastructure and advanced platform technologies, Far Eastern Group's communications and network business has progressively realized its vision of integrating mobile networks, fixed-line networks, digital services, smart ICT solutions, and automotive electronics services. The Group is evolving into

a platform-centric service provider that goes beyond traditional telecom convergence and conventional connectivity services. Through complementary integration of core technologies, it continues to position itself as an innovator, pioneer, and challenger in the telecommunications industry.

建築營造事業為遠東集團水泥建材版圖的延伸，結合營建技術與建築美學，在板橋台北遠東通訊園區周邊導入創新工法興建住宅，擘劃台灣建築新里程。

因應 1980 年代經濟成長帶動的營建需求，集團於 1978 年成立遠揚建設，1982 年成立遠揚營造，除承建集團工程外，亦參與新莊棒球場、高雄捷運及台中生活圈快速道路等重大公共建設。

面對人力短缺及工安、環保挑戰，遠揚營造率先引進日本預鑄工法，推動建築工業化，提升施工品質與效率，並獲專業機構與媒體關注。

1984 年成立遠鼎建設，打造台灣首座大型複合開發案「台北遠企中心」，涵蓋集團總部與五星級飯店。2001 年改制為遠鼎公司後，進一步拓展至不動產管理、專案管理、設計規劃及智慧監控等領域。

The Construction and Development Business is an extension of Far Eastern Group's cement and building materials operations. Integrating advanced construction expertise with architectural aesthetics, the Group has introduced innovative building methods for residential developments around the Taipei Far Eastern Telecom Park in Banqiao, helping shape a new era of modern architecture in Taiwan.

To meet growing demand driven by Taiwan's economic expansion in the 1980s, the Group established Far Eastern Construction Co., Ltd. in 1978 and Far Eastern General Contractor Inc. in 1982. In addition to undertaking internal projects, these companies have participated in major public infrastructure developments, including Xinzhuang Baseball Stadium, Kaohsiung Mass Rapid Transit system, and Taichung Metropolitan Area Expressway network.

To address labor shortages and increasing safety and environmental requirements, Far Eastern Construction became the first in Taiwan to adopt

advanced Japanese precast construction technology, promoting industrialized building practices that enhance quality, precision, and efficiency. The initiative has attracted attention from professional institutions and the media.

In 1984, the Group established Yuan Ding Construction Co., Ltd. which built Taipei Far Eastern Plaza, Taiwan's first landmark mixed-use complex, encompassing Group headquarters and a five-star hotel. Following its restructuring into Yuan Ding Co., Ltd. in 2001, the company further expanded into property management, project management, design planning, and intelligent monitoring systems.

隨著 1990 年代國際化與自由化浪潮帶動台灣經貿快速成長，高端旅宿需求隨之提升。遠東集團於 1994 年在台北設立台北遠東香格里拉飯店，委由香格里拉旅館集團經營管理，正式揭開台灣國際五星級飯店的新頁。飯店擁有 420 間景觀客房、8 間中西式精緻餐廳與酒廊、十多間多功能宴會與會議空間，以及地標性的頂樓景觀泳池與芳療設施，以專業細膩的服務，為賓客帶來全方位的尊榮體驗，深受國內外商務與旅遊旅客肯定。並於 2016 年於新北市百揚大樓成立 Mega 50 餐飲及宴會，成為新北首座國際級五星餐飲地標。

因應國際觀光成長與台南科學園區帶動的商務需求，遠東集團於 2008 年在台南市中心設立台南遠東香格里拉飯店，擁有 334 間客房、多元宴會廳及劇院型國際會議廳，為台南規模最大的國際五星級觀光飯店，亦是重要的城市地標。

As Taiwan's economy expanded rapidly amid the waves of globalization and liberalization in the 1990s, demand for premium hospitality grew accordingly. In 1994, the Far Eastern Group established Shangri-La's Far Eastern Plaza Hotel, Taipei, appointing the internationally renowned Shangri-La Group to manage the property and ushering in a new chapter for international five-star hotels in Taiwan.

The hotel features 420 elegant guestrooms with panoramic views, eight refined Chinese and Western restaurants and lounges, more than ten versatile banquet and meeting venues, and iconic rooftop facilities including a scenic swimming pool and wellness spa. With its professional and attentive service, the hotel delivers a comprehensive five-star experience and is widely recognized by both domestic and international business and leisure travelers. In 2016, the Group also expanded into New Taipei City with the launch

of Mega 50 Banquet & Catering at Banqiao Mega Tower, establishing the city's first international-caliber five-star dining and event landmark.

In response to the growth of international tourism and the business momentum driven by the Tainan Science Park, the Far Eastern Group opened Shangri-La's Far Eastern Plaza Hotel, Tainan at the city center in 2008. The hotel offers 334 guestrooms, a wide range of banquet venues, and a theater-style international convention hall, making it the largest international five-star hotel in Tainan and a prominent city landmark.

台北與台南遠東香格里拉長期深耕在地，攜手地方政府、社區團體與供應夥伴，透過負責任的旅宿經營模式，促進社會文化、地方經濟與自然環境間的共生共榮，實踐永續旅遊的長遠願景。

在空間美學與文化表現上，台北遠東香格里拉飯店以宋代美學為設計主軸，從整體視覺語彙、空間動線規劃到服務細節，皆體現東方文化內斂、溫潤而優雅的精神，形塑兼具文化深度與國際視野的旅宿風格，並連續多年獲得米其林指南與富比世旅遊指南肯定。台南遠東香格里拉飯店則汲取在地人文底蘊與自然意象為靈感，融合風水哲學與「圓」的設計語彙，營造和諧流動、生機盎然的空間氛圍，並於 2009 年榮獲美國 Gold Key Award 最佳大廳設計獎，成為台南具代表性的地標。

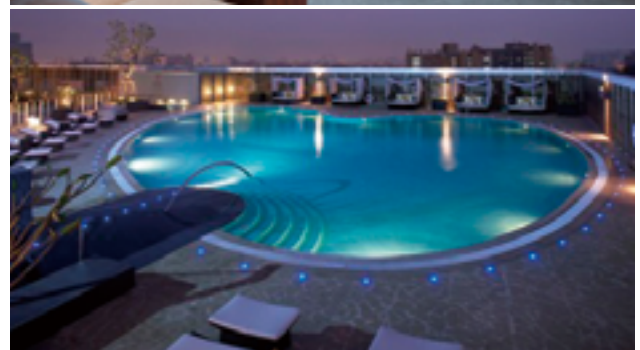

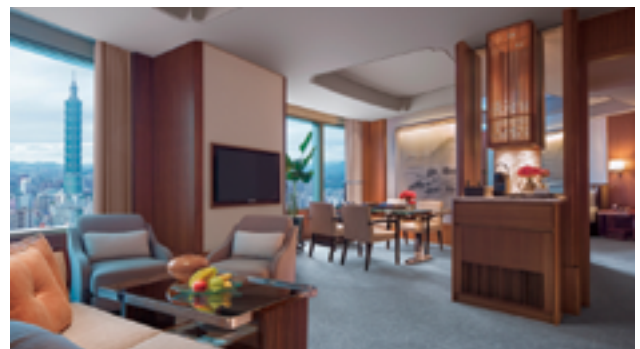

Shangri-La's Far Eastern Plaza, Taipei and Shangri-La's Far Eastern Plaza, Tainan have long worked closely with local partners to promote a harmonious balance between social culture, local economies, and the natural environment through responsible hospitality operations, bringing the principles of sustainable tourism into practice.

In terms of spatial design, Shangri-La's Far Eastern Plaza, Taipei is inspired by Song Dynasty aesthetics. From visual expression and spatial flow to service details, the hotel reflects the understated elegance and refined sensibility of Eastern culture, creating a distinctive international hospitality style. The property has received consistent recognition from the MICHELIN Guide and Forbes Travel Guide over the years. Shangri-La's Far Eastern Plaza, Tainan draws inspiration from local culture and natural elements, incorporating feng shui

philosophy and the concept of circular harmony into its design to create a vibrant and welcoming atmosphere. In 2009, it was honored with the Gold Key Award from the United States for Best Lobby Design, further establishing it as a prominent landmark in Tainan.

Advancing Education for National
Prosperity and Excellence

本於創辦人「教育興國」及為國家培育一流科技人才的理念，遠東集團積極投入百年樹人的教育事業。1968 年設立「亞東工業技藝專科學校」，陸續於 2000 年升格為「亞東技術學院」、2021 年通過成為「亞東科技大學」。1989 年設立「元智工學院」，於 1997 年獲准改名「元智大學」，不僅為國內第一所榮獲「國家品質獎」的私立大學，更獲英國泰晤士報高等教育專刊評選為「全球新興潛力大學」之一。

為讓集團的力量產生最大的綜效，現亞東醫院更結合元智大學及亞東科技大學成立醫護學院，共同培養優秀的醫護專才，期許在不久的將來，能帶給民眾最好的醫療照護。

Guided by the Founder's belief that "education strengthens the nation" and his vision of cultivating world-class technological talents, the Far Eastern Group has actively invested in long-term educational endeavors. In 1968, Oriental College of Engineering and Technology was established, which was later upgraded to Oriental Institute of Technology in 2000 and officially became Asia Eastern University of Science and Technology in 2021. In 1989, the Group founded Yuan Ze Institute of Technology, which was renamed Yuan Ze University in 1997. Yuan Ze University became the first private university in Taiwan to receive the National Quality Award and was also selected as one of the "Global Emerging Potential Universities" by the British Times Higher Education.

To maximize synergy of the Group's resources, Far Eastern Memorial Hospital has

partnered with Yuan Ze University and Asia Eastern University of Science and Technology to establish a College of Medicine and Nursing. Together, they aim to cultivate outstanding healthcare professionals and aspire to provide the public with the highest quality medical care in the near future.
